Professional Experience

Independent Software Developer September 2021 - Present

- Published an Android app built with Flutter to the Google Play store
- Built a full-stack web application with a React front end and Node back end
- Hosted a web application on a Heroku site

Neopets Fansite Manager December 2021 - Present

- Unaffiliated with the official Neopets.com team
- Part-owner and senior member of a team that collects, records, and manages user-supplied data for in-game item trades conducted on Neopets.com
- I own, maintain and update a Python Discord bot that allows users of Neopets fan Discord servers to search our MySQL database and submit reports to us
- I host our MySQL database on Amazon Web Services
- I have also developed and contributed to various other tools we use to streamline the process, in Python, C# and Google Apps Script
- Currently developing a Flask REST API to distribute to other developers in the Neopets.com fan community so that they may build tools utilizing our MySQL database

Education

Bachelor of Science in Computer Science Cal Poly Pomona at Pomona, CA September 2020 - June 2022

Completed a Bachelor of Science degree in Computer Science at Cal Poly Pomona. I took a lot of my courses online during the COVID-19 pandemic and graduated with a 3.6 GPA, demonstrating self-motivation and ability to complete assigned tasks while working remotely.

Community College Fullerton College at Fullerton, CA September 2017 - September 2020

Took general education and basic Computer Science courses at community college before transferring to finish my Bachelor's degree.

Key Skills

- Computer skills
- Written communication
- Experienced with programming languages including Java, Python, JavaScript, and C++
- Good grasp of Computer Science and Object-Oriented Programming fundamentals
- Comfortable using spreadsheets (Google Sheets, Excel)
- Basic database skills (MySQL)
- Comfortable using Git for version control from the command line or in a code editor such as VS Code
- Comfortable using Linux

Certifications

Bachelor of Science in Computer Science | June 2022
